

***On your construction paper you must include the following to receive full credit:***

1. Place all 6 points items on one side and all 4 point items on the other side of your construction paper.
2. The **item number** and the **description of the item** included on this page plus the newspaper cutout.
3. Box each item so that it is separate and easy to identify. Check off the items you have included in the FOUND column.
4. Your grade is the total points for all correctly identified items on your construction paper.
5. The maximum number of points you may earn is 105.
6. You may only include ONE of each item and one cut-out may not count for more than one item.
7. Staple this page to your completed work.
