FANTASY FOOTBALL EXCUSES

THE COACH PULLED MY RB AT THE GOAL LINE

I NEVER SHOULD HAVE SWITCHED STARTERS

I PLAYED THE WRONG KICKER

MY WR TORE HIS ACL

the other guy had a lucky day

I FORGOT ABOUT THE BYE WEEK

THE QB STEPPED OUT OF BOUNDS
Dear Math Parents,

ARE YOU READY FOR SOME FOOTBALL?

I am always looking for new ways to engage students in mathematics. This year I will be using Fantasy Football as a tool to get students excited about math. The inclusion of fantasy sports in learning environments has been shown to be a unique and effective method to teach mathematics.

Fantasy sports are games in which students create fantasy teams by picking real-life professional athletes, who earn points based on their performances in their games. Students track their players’ statistics and compute points for their teams using algebraic or non-algebraic methods that complement the math skills they are learning.

Students can follow their players in newspapers, online, or on television. Each week, they will also construct tables that show the scoring breakdown for their teams. I will also integrate fantasy sports worksheets into the game that dovetail with the math concepts that students are working on in class.

Thousands of students and parents are already playing fantasy sports together in classrooms throughout the country. This unit will be more fun if you are involved. Your participation would also serve to build community within our school, and the friendly spirit of competition would be enjoyable for all.

Your student will be bringing home a draft page to select their initial players for our league. Parents and siblings are more than welcome to participate by helping their accelerated math student with their draft. The draft is based on a set spending limit of $80,000,000 so you do not have to worry about what players other students will draft. We will allow students to make replacements during the season following certain rules. Each week, we will post students’ scores in my classroom and online.

I hope you are excited as I am about using fantasy sports to facilitate learning. Sports statistics represent real-life data that has meaning for students. Fantasy sports helps students to make connections between math at school and math in the real world. Research indicates that learning is facilitated when these connections are made. If you want more information about the fantasy sports programs we will use, you can visit www.fantasysportsmath.com.

We also invite your family to our draft party at school. This will be a time to ask questions, research your students’ team online, and complete the draft form.

FANTASY FOOTBALL DRAFT PARTY
DURHAM INTERMEDIATE LIBRARY
AUGUST 30, 2019
3:45-6:30pm

Sincerely,
The Sixth Grade Math Team
MATH PARENTS and SIBLINGS

Looking for a way to participate in our math classes this year?

Think you know your football players?
   Sequon Barkley or Alvin Kamara?
   DeAndre Hopkins or Julio Jones?
   Dak Prescott or Drew Brees?

Want to be a participant in our fantasy football game?

First, you are more than welcome to help your student with their player picks. In addition, we would like for you to play in our: Parent and Sibling Leagues

Best of all it is FREE and you could win the coveted trophy presented to the top parent each year!

Turn in your draft by the Noon on September 2 and you will be all set. Make sure you have read all the rules about making your picks. Each week our students will compute your score and update your won-loss record. All the work is done for you!

Either complete the Google Form with your final choices or email your picks with the whole Excel file to:
   Lance.Mangham@southlakecarroll.edu or Chris.Underwood@southlakecarroll.edu

Thank you!
Lance Mangham & Chris Underwood
DFFL (Durham Fantasy Football League) FOR DUMMIES

If you are a fantasy football rookie, don’t worry! This guide will give you everything you need to know to create a team, pick the best players, and enjoy your season.

**Positions**

QB = Quarterback (He is the one who starts each play. He either hands the ball to a running back or passes the ball to a wide receiver, tight end, or running back).

RB = Running Back (He is the one who runs with the ball. Sometimes he also catches passes.)

WR = Wide Receiver (He is the one who catches the football when the quarterback throws it.)

TE = Tight End (He is about the same as a wide receiver.)

K = Kicker (He is the one who kicks the ball through the goal posts for an extra point or a field goal.)

D/ST = Defense/Special Teams (Defense tries to not let the other team score and to get turnovers such as fumbles or interceptions. Special teams do things like returning kicks and trying to block other teams kicks.)

**Drafting Your Team**

Draft Day is exciting because you get to choose players to be on your team for the rest of the year!

“I have no idea which players are good?” No problem. Look at the list of players and how much each one costs. The best players cost the most amount of money. It is like going on a shopping spree!

You will want to spend your entire $80 million. At running back, for example, each week your top 2 scoring runners count. One example of a strategy would be to buy 2 really good backs, one medium cost back, and one really cheap back.

You don’t have to worry about who others are choosing because the same player can be bought by many teams.

“Okay, but I still don’t know who to pick?” If you don’t know any of the players there are still many fun ways to choose. You can research online or in magazines to decide who they suggest. You can pick your favorite city, like Miami for example, and choose players on the Miami Dolphins. You can choose players who cool last name or players with the same first name as you!

Websites that are helpful: Visit the ManghamMath.com for a few possibilities.
FANTASY FOOTBALL RULES & REGULATIONS

Mr. Mangham’s Math Classes, 2019-2020

Draft Rules:

1. You have $80,000,000 to draft your team. You may not go over this amount and you must spend at least $75,000,000. Any money not used in the initial draft is gone. There is no reason to save money for a later time.
2. You have 2 Super Starters and their score will count every week.
3. You have 12 core players (quarterbacks, running backs, wide receivers/tight ends).
4. You have 2 coaches.
4. **You must fill all draft positions.**
5. You are responsible for looking at Bye Weeks and making sure you have enough players to play each week.

How To Complete the Draft Form:

1. Look up the players you wish to draft by position using the bottom tabs.
2. To pick a player type in their number in the yellow column. All other columns will fill in automatically. Your cash balance will be automatically updated.
3. Once the picks are complete students must also complete the Google Doc with your choices. Print out the draft page and bring it to class as a back-up. All non-students must be send the file to Mr. Mangham electronically at Lance.Mangham@southlakecarroll.edu

**IMPORTANT:** All student entries must be turned in between August 29 at 4:00pm and September 2 at noon.

Scoring System:

1. The scoring system is listed on your draft form as well as your weekly scoring page.
2. During the regular season, ESPN.com will be used for all official statistics and scoring during our game.
3. Each week you will played against everyone in your class. If you score higher, that is a win. If you score lower, that is a loss.
3. In the case of a tie between two teams, the winner will be determined based on the total points of all of their players that week.

Replacements & Trades:

**Trades are not permitted in either league.** There are rules regarding free agents (replacing players during the season). For players in the Parent and Teacher leagues, you will a chance to make replacements during one special week.
1. The fantasy football regular season will end after Week 13.
2. In leagues with at least 14 teams, the top 8 teams advance to the playoffs. Otherwise, the top 4 teams make the playoffs.
3. The regular season champion will be the #1 seed and so on down to #8. Ranking are determined on the basis of won-loss record. Ties will be broken based on total points.

**Playoffs Week 1 (Week 14) - Quarterfinals**

Player #1 will play against Player #8 and so on. The winners advance to the Playoffs Week 2 Championship Games.

**Playoffs Week 2 (Week 15) - Semifinals**

The remaining 4 teams in the bracket play against each other. The two winners advance to the Super Bowl.

**Playoffs Week 3 (Week 16) - Super Bowl**

The final 2 teams in each league compete in the Fantasy Football Super Bowl. The player with the highest score will be crowned the **Grand Champion of Fantasy Football 2019-2020**.
Claiming Free Agents

You have a chance each week to claim free agents. Free agents are NFL players who have been selected by *less than 5 other Mangham student teams*.

Free agency is available during these weeks:
- Between Week 4 and 5 you may claim 2 free agents
- Between Week 6 and 7 you may claim 2 free agents

You claim a free agent by submitting the Free Agent Claim Form no later than Friday at 4:00pm to Mr. Mangham. **If multiple people all try to claim the same free agent during one week, the player(s) with the lowest total score will be given priority.**

Each time you claim a free agent, you must drop someone from your team. That person must be the same position as the player you are trying to claim.

You are only permitted to make 1 or 2 replacement each of these weeks.

Teams in the bottom 5 of each class are required to make replacements.

A list of players who are currently free agents will be posted outside of Mr. Mangham’s classroom.
WEEKLY FREE AGENT CLAIM FORM

You may only make two replacements this week.
Please fill out one form for each replacement.

Due Friday at 4:00pm
