You may use a calculator to convert fractions to decimals. Round the decimal to the nearest thousandth. You do not need to simplify fractions.

|  |  | fraction | $\begin{gathered} \hline \text { doubles } \\ \hline \text { AB } \\ \text { decimal } \end{gathered}$ | percent | fraction | $\begin{gathered} \hline \text { triples } \\ \hline \mathrm{AB} \\ \text { decimal } \end{gathered}$ | percent | fraction | $\begin{gathered} \hline \text { homerooms } \\ \hline \mathrm{AB} \\ \text { decimal } \end{gathered}$ | percent |
